Title:

Test: Rh Lab Requisition/Fetal Screen order set

Explanation of change:

The ABO and Rhogam have been combined into the Fetal Screen order. Once the Fetal Screen has been resulted and verified the ABO will be added on. Please go back into the order and result the ABO. The Rhogam order has been removed from the order set and Rh Lab Requisition. This order no longer needs to be ordered in Meditech, however the "Rhogam Needed" form still needs to be sent to MCHOB for inpatients and Pharmacy for ED/Home Deliveries. Please follow the Blood Bank Cord Blood Process and Suspected Fetal Maternal Hemorrhage Flow Charts for appropriate test orders based on the Cord Blood Test Results.

	Old	New
<i>Negative Result</i>	Negative	Negative with attached canned comment (see attached print out)
<i>Positive Result</i>	Positive	Positive with attached canned comment (see attached print out)
<i>Test Code</i>	FS, ABO, Rhogam	FS
