

Laboratory Technical Bulletin

Date: 3/31/21

Effective Date: 3/31/21

Title: Semen Analysis update

Test: Semen Analysis/Infertility Testing

Explanation of change: As of today, the **Sperm Morphology portion** of Infertility Semen Analysis will be **discontinued**. Sperm Count and Motility will be reported as in the past.

If Sperm Morphology testing is required by the provider, then they will send the patient to a specialized andrology laboratory for additional studies.
