Laboratory Technical Bulletin

**Date:** 7/8/2022

**Effective Date:** 7/8/2022

**Title:** Test Delays

**Explanation:** Due to reagent shipment interruption, results for the following tests that are sent out to our reference laboratory at Mayo Clinic will be delayed:

- TICKS Tick-Borne Disease Antibodies Panel, Serum
- QFP Q Fever Antibody, IgG and IgM, Serum
- BABG - Babesia microti IgG Antibodies, Serum
- ANAP - Anaplasma phagocytophilum (Human Granulocytic Ehrlichiosis) Antibody, Serum
- EHBAP - Ehrlichia/Babesia Antibody Panel, Immunofluorescence, Serum
- EHRC - Ehrlichia chaffeensis (HME) Antibody, IgG, Serum
- EHRCP - Ehrlichia Antibody Panel, Serum
- SFGP - Spotted Fever Group Antibody, IgG and IgM, Serum

LYMES (Lyme Screen) and TICKP (Tick-Borne Panel, PCR) are not affected. Samples will be stabilized and run once testing is resumed.
