

Laboratory Technical Bulletin

Effective Date: Immediately

Date: November 15, 2019

Title: Discontinuation of HSV IgM Testing at Mayo Clinic Laboratories

Test: Herpes Simplex Virus, IgM

Explanation of change:

Mayo Clinic Laboratories will **discontinue testing of HSV IgM** including:

- HSV IgM stand-alone test
- HSV IgM/IgG panel.

The type-specific HSV IgG test, however, will remain orderable. This change aligns with CDC, IDSA and AAP recommendations.
