Laboratory Technical Bulletin

Date: August 18, 2022

Effective Date: September 1, 2022

Title: Platelet Transfusion Filter Set

Explanation of change: The filters provided by the blood bank for Platelet Transfusions will be discontinued. The filters which are currently used for Blood Transfusions should be used in their place. These filters are already stocked by the department performing the transfusion.

	Old	New
Filter Size	170-260 Micron	200 Micron
