

# Bio-Implant Reference Manual

International Use Only

# Bio-Implant Reference Manual

**Saving Lives, Restoring Health is our business.**

Nowhere is the reality of death more evident than in the decision-making process surrounding tissue and organ donation. It's a course of action that involves everything from the simple to the complex, from the sadly certain to the certainly optimistic. LifeNet Health takes this tragedy and turns it into hope.

Our full line of allograft bio-implants maximizes the precious gift of donated tissue and provides surgeons with the tools they need to improve the lives of patients.

By making the finest quality allograft bio-implants easily accessible, we continue to provide exemplary service to clinicians and hospitals.

**Every year, LifeNet Health distributes over 400,000 bio-implants to meet the urgent needs of hospitals and patients around the world.**

Our record of safety is unmatched. And our philosophy is simple: When partnering with a bio-implant supplier, your decision should not be based solely on fee, but rather on the overall value you and your patients expect and deserve.

At LifeNet Health, we deliver that value by excelling in these critical areas – safety, quality, innovation, service, clinical effectiveness, supply chain reliability and experience.

With LifeNet Health as your primary bio-implant supplier, you are investing in the best possible value to ensure the well-being of your patients and the reputation of your hospital.

**This is the value of working with LifeNet Health.**

# The Value of Working with LifeNet Health

## Safety

For over 30 years, we have refined and defined safety in the allograft industry. Our processes, quality systems, and proprietary cleaning and sterilization technologies are designed to ensure the utmost safety for your patient - **reducing the probability of infection that could be caused by an allograft implant, and saving your facility unexpected costs.** Infections erode profits and hold legal ramifications if hospitals fail to implement best practices in infection control. Since 1995, over four million bio-implants processed using Allowash technology have been distributed by LifeNet Health with no disease transmission.

The thread of safety is woven through every step of the donation process, including:

- Nationwide Recovery Network
- Physical Examination & Recovery Protocols
- Controlled Processing & Terminal Sterilization
- Stringent Donor Screening and Review
- Bacteria & Serology Testing
- Final MD Review & Release

## Quality

LifeNet Health's controlled tissue processing environment is designed to ensure bio-implant quality and safety. Through the consistent application of quality systems, quality control, and design control processes, LifeNet Health bio-implants are designed and manufactured to ensure the highest possible quality. **LifeNet Health grafts consistently perform as they should, allowing medical professionals to focus on the procedure, and patients to focus on healing.** Year after year, this dedication to quality is validated internally, and vetted by your peers, as well as government and industry regulators.

- Extraordinary Design Control Processes
- Validation
- Quality Control Post-Processing Testing
- **A product complaint rate of approximately 0.1%**
- ISO, AATB, FDA, CLIA accreditations and certifications

## Innovation

Because LifeNet Health leads the industry, and our innovations bring both clinicians and patients the most up-to-date technologies, **choosing LifeNet Health means choosing a partner able to consistently provide you with products, technologies, and services designed to improve safety, clinical effectiveness, ease of use and, ultimately, cost for the facility.** Since opening its doors in 2012, the LNH Institute of Regenerative Medicine has been a hub of research and development activity, and **can supply you with the products to meet your needs now - and in the future.**

## Service

Healing never takes a vacation, and neither do we. We offer strategic inventory alternatives, and have a team of product managers and services specialists dedicated to meet your needs to save you valuable time. And LifeNet Health offers value-added, and award-winning programs to complement the continuing education needs of your staff.

- Global Network of Partners
- Continuing Education Programs (on and off-site)
- Consignment Options
- Sales & Consulting Support
- Room Temperature Products

## Clinical Effectiveness

Our extensive portfolio of implants consistently performs at the highest level because LifeNet Health has invested considerable resources performing multiple clinical studies to ensure your patients' outcomes are positive.

## Supply Chain Reliability

**LifeNet Health offers you a partner with bi-coastal production facilities - ensuring a dedicated supply of much needed allograft products to your facility.** And we are working towards being able to produce and process our entire extensive portfolio at each facility, which supports nearly every surgical discipline.

- Multiple Distribution Centers
- World's 2nd-largest Access to Donor Tissue

## Experience

**Many of the world's largest orthopedics companies parter with and rely on LifeNet Health's expertise and experience.** As a non-profit organization, LifeNet Health is able to focus our energies and passion to our mission of saving lives and restoring health – not shareholders' concerns for the bottom line.

- Over 30 years of tissue banking experience
- First of its kind to become ISO certified
- Preferred allograft provider to 6 of US News & World Report's top 10 hospitals
- Longest-running AATB certification
- Trusted partner of leading orthopedics companies

# Bio-Implant Portfolio

## **AngioGRAFT®**

Bio-Implants for Vascular Procedures

Allograft bio-implants are available for managing vascular reconstruction.

## **CardioGRAFT®**

Bio-Implants for Cardiac Procedures

Suitable for a wide variety of complex congenital heart defects, as well as for adults with extensive valvular disease.

## **FlexiGRAFT®**

Bio-Implants for Sports Medicine

FlexiGraft ligaments, tendons and bone are ideal for sports medicine applications. (Includes ArthroFlex®)

## **MatriGRAFT®**

Durable Allograft Bio-Implants

MatriGraft bio-implants are typically used for general orthopedics, fracture management, total joint arthroplasty, and spine surgery.

## **OraGRAFT®**

Bio-Implants for Oral/Maxillofacial Procedures

Hard and soft bio-implants generally used for sinus augmentation, craniofacial reconstruction, and correction of periodontal and ridge defects. (Includes OraCell®)

## **OsteoBIOLOGICS**

Enhancing Natural Healing

Cross-specialty bio-implants engineered to enhance bone regeneration.

## **ReadiGRAFT®**

Readily Available Cross-Specialty Bio-Implants

Bio-implants widely used for fracture management, general orthopedics, spine surgeries, and total joint arthroplasty.

## **VertiGRAFT®**

Specialty Bio-Implants for Spine Surgery

The bone wedges and shafts are available in many sizes and configurations to fit various spine surgery applications.

## **DermACELL®**

Advanced Decellularized Dermis

## **ArthroFLEX®**

Acellular Bio-Implant for Soft Tissue Repair

Advanced decellularized dermis for soft tissue and wound management applications.”

## **OrACELL®**

Decellularized Dermis for Maxillofacial Applications

# Allograft Technologies

The safety and quality of your allograft bio-implants are critical to you and your patients. As a leading regenerative medicine company, LifeNet Health has developed a full suite of technologies to ensure these needs are met with every bio-implant we provide.

## MATRACELL® Allograft Bio-Implant Decellularization

This patented and validated process renders allograft bio-implants acellular, without compromising the biomechanical or desired biochemical properties of an allograft bio-implant for its intended surgical application.

## ALLOWASH XG® Bio-Implant Sterilization

For optimal safety, this patented sterilization process renders allograft bio-implants sterile, without compromising biomechanical or biochemical properties.

## PRESERVON® Allograft Bio-Implant Preservation

Our proprietary, preservation solution allows bio-implants to be stored in a fully hydrated state at ambient temperature. This eliminates the need for lengthy rehydration, and saves valuable OR time.

## PAD® Allograft Bio-Implant Demineralization

Our technology provides precise bone demineralization to achieve the ideal residual calcium level of 1 to 4%. This controlled process protects bone morphogenic proteins (BMPs) while ensuring optimal osteoinductivity.

## Traditional Core Allografts

	L = 21 - 30 cm	FA21-30
	L = > 30 cm	FA>30

All vessels are measured by outside diameter (OD).

# Ordering LifeNet Health Allograft Bio-Implants

Health care facilities, approved distributors and authorized tissue dispensing intermediaries are permitted to order allograft bio-implants from LifeNet Health. Only licensed clinical professionals may actually transplant tissue.

Orders may be placed by e-mail, phone and/or fax or e-mail at [lnhinternational@lifenethealth.org](mailto:lnhinternational@lifenethealth.org). A valid purchase order number must be provided for all orders. All phone calls to LifeNet Health's Client Services department are recorded for quality control purposes.

Title to LifeNet Health products passes from LifeNet Health to the customer once the shipment leaves our facility.

## Transportation of LifeNet Health Allograft Bio-Implants

All LifeNet Health Bio-Implants (except CardioGraft and AngioGraft cryopreserved) will be shipped either Fed Ex Priority or UPS Worldwide Express and customer will be charged for each shipment.

Cryopreserved CardioGraft and Angiograft allograft bio-implants will be shipped by special courier services and a courier fee will be charge for each cryoshipper. Return of the empty cryoshipper will be handled and coordinated by LifeNet Health.

## Return Policy

LifeNet Health does not allow for the return of unused allograft bio-implants. For information about returning damaged allograft tissue, please contact LifeNet Client Health Services at 1-757- 464-4761 ext 2000.

## Payment Terms and Conditions

Payments are due prior to shipment unless otherwise stated. Payments are due in US dollar only. Allowable forms of payment are: Visa/Master Card, or wire transfer. Account statements are sent monthly to all accounts as a reminder of outstanding payments due. For any payment questions or information please call 1-757-464-4761 ext. 4444 or e-mail at: [accountsreceivable@lifenethealth.org](mailto:accountsreceivable@lifenethealth.org)

This reference manual should not be considered as an approval of products in every country. It is recommended that you verify product approval or registration status for your country with Client Services prior to placing an order.

## Please Mail All Payments To:

LifeNet Health  
P.O. Box 79636  
Baltimore, MD 21279-0636
