Effective Date: 1/28/2026

Title: Lab Orders for Codes

Test: Code/ Alert Labs (219058)

Explanation of New Order Set:

An order set has been created for quick ordering of labs during Codes. Any labs in this order set can be selected or deselected. Collected lab samples should be transported to the lab in the provided Yellow Specimen Bags. When the lab receives this Yellow Bag, they will enter an “Active Code” flag on the patient in Epic. This flag will inform each area of the lab to prioritize these samples.

The yellow specimen bags will be stocked on the crash carts and will replace exist Code specimen bags. When needed, additional bags will be available in the lab for restocking.

Pre-Selected Tests	Additional Tests
Complete Blood Count (CBC) w/ Auto Diff	Fibrinogen
Comprehensive Metabolic Panel (CMP)	D-Dimer
Magnesium	B-type Natriuretic Peptide (BNP)
Phosphorus	Creatine Kinase (CK)
Venous Blood Gas (VBG)	Basic Metabolic Panel (BMP)
Ionized Calcium	Blood Culture
PT-INR	Urinalysis w/ Reflex Microscopic & Culture
aPTT	C-Reactive Protein (CRP)
Type and Screen	
Lactic Acid	
Troponin
