	Pending transfusion reaction investigation
	Pending antibody ID workup incomplete
	Least incompatible crossmatch caused by:
	Other:

Blood Bank Technologist: _____ Date/ Time: _____

Complete the box below and return a copy to the Blood Bank.

I certify that release of blood without complete crossmatch and/or typing is clinically indicated by the emergency nature of the patients condition. I understand that the Blood Bank will perform compatibility and crossmatch testing as soon as possible and will immediately report any incompatibility.
